the Sewn Products Industry

# VMW AR5000NF AutoRiser

**Automatic Sewing and Stacking Riser (yoke)  
and Leg Panels for Blue Jeans**

# Specifications

<b>Sewing Head</b>	Pfaff 5642 / Pegasus TM625 Needle Feed
<b>Material Sizes</b>	Shorts, Children's & Adult Jeans
<b>Production</b>	4,800 Riser Seams per 8 hour day.
<b>Training Time</b>	One to two weeks
<b>Cut-and-Stack</b>	Automatic, two part system can stack right and left legs separately or together directly onto the bundle cart.
<b>Ergonomics</b>	Standing Operation; Push-Button controls raise and lower machine height through six inch range.  Eliminates difficult wrist and finger work.
<b>Installation</b>	Factory installation is available. Additional charges may apply.
<b>Quality</b>	Aligns on seat seam edge  Differential feed can stretch or compress riser or leg panel up to 1/16".  Smooth, straight seam; needle-fee head does not stretch or pucker the material.  Stepping motor and sensor controlled conveyors align on seat seam edge to prevent raw edging during seat seam operation.  Sew panel over riser or riser over panel.

**VMW Automated Apparel Equipment**
